

Presentation

- DuPont™ Sorona® thermal insulation product line offers maximum design flexibility for outerwear. The special process allows up to four thicknesses of insulation per weight category: Super Air, Classic, Balance, Micro. so it can be used with virtually any fabric and no quilting restrictions. It is extremely versatile.
- Sorona® is a versatile fiber, it made from 37% plant-based ingredients, and its long list of uses comes from a kink in the PTT polymer chain that naturally snaps back into shape.
- Sorona® helps reduce our dependence on oil and petrochemicals and shrinks our environmental footprint. As an eco-efficient fiber, Sorona® makes you feel good by doing good.

Features

SMOOTHER FEEL:
 Fluid drape for a fit that moves with your body.

SHAPE MEMORY:
 Resists bagging and maintains its shape and strength over time.

DURABILITY:
 Strength and resilience for going the extra mile.

STRETCH & RECOVERY:
 Superior stretch and shape retention for maximum comfort on the move.

PATENTED TECHNOLOGY:
 Made from a unique PTT molecular structure designed for maximizing performance.

INSULATION:
 Delivers lightweight, breathable warmth for taking on any challenge, in any condition.

SOFTNESS:
 Exceptional softness and rich hand feel for day-in, day-out comfort.

RENEWABLY SOURCED:
 Made of 37% plant-based materials for a more sustainable lifestyle.
